## PIVIT Calculators Disclaimer

Please read this agreement carefully before using any PIVIT Calculator (“Calculator” or “Calculators”) provided by American Equity Investment Life Insurance Company (“American Equity”). These tools are not intended to be a financial plan or investment advice from American Equity, nor are they to be substituted for the same.

These Calculators are provided as general self-help tools. Calculator results depend on a variety of factors and are based on previously established assumptions, including assumptions you or your agent may choose to provide. These Calculators are intended to allow you to test those assumptions. Variations in underlying assumptions may significantly affect the results produced by the Calculators. In addition, these Calculators ignore any potential future transactions or changes in applicable law which cannot be anticipated.

You should not rely solely on Calculator results when making any financial decisions. Computations provided by these Calculators are intended for demonstrative purposes only and are not intended to portray actual results. These quotes are hypothetical in nature and may be based on historical or current data. American Equity does not guarantee actual results will reflect the hypothetical results provided by these Calculators. Calculator results may vary over time and past performance does not indicate guaranteed future results. This data is not guaranteed to be accurate or complete.

The information provided by these Calculators is not a complete description of all policy provisions and is not intended to predict future performance. Any product you purchase from American Equity will be governed exclusively by the terms of the specific contract, including any and all applicable riders, for that product. Fees used or stated in these Calculators may change according to the terms of your contract or riders. If you have an existing contract, please review your contract for specific provisions and limitations or see the applicable product/rider brochure, and disclosure for all of the benefits and limitations. Calculator results are not offers, representations, or warranties of American Equity.

The results and information provided through this Calculator are not legal, accounting, or tax advice. Please consult with your insurance agent, and financial, tax and/or legal advisors for advice regarding your personal circumstances. The results from these Calculators are not intended to constitute a marketed or reliance opinion and may not be used to avoid penalties under the Internal Revenue Code.

American Equity may use these Calculators for internal business purposes. When used in this capacity, Calculator results are for demonstration purposes and internal use only. Results do not constitute an offer, representation, or warranty of American Equity and do not guarantee approval or issue. All annuity applications are subject to standard business requirements including, but not limited to, suitability and new business processes. Information and/or results may be changed or updated without notice.

American Equity, its management, employees, representatives, agents and affiliates do not accept responsibility for any errors or omissions in relation to the Calculator, and do not accept liability for any loss, damage, or inconvenience caused in reliance on the Calculator.
