NAA Agents

Use the Points of Care prescription card to gain referrals from your clients – if they don't need the card, they will most likely know one of the 50 million people in the United States who are without health insurance and can benefit from the savings Points of Care offers!

- Order 50 brochures for \$15 from the NAA online store or purchase them at today's event or print your own customized card for each client at naarxcard.com.

NAA Agents have seen huge success in promoting the Points of Care program. A few benefits:

- Build rapport with clients and gain trust as you provide them this **FREE** valuable benefit!
- The savings they experience on medications will justify the premium cost of any policy they decide to purchase.
- Use this card for your own family and use that money to invest into your business.

This card is most beneficial for:

- Those without health insurance coverage for prescriptions
- Those taking medications not covered by their health insurance
- Those with a high deductible for prescriptions
- Those in the "donut hole" of Medicare Part D prescription coverage. Some have found that Points of Care provides more savings than some Medicare Part D supplement plans.

Testimonials

“Last week I sold two mortgage protection plans and when I gave out the RX card, I mentioned that I can sponsor 3 friends, family or neighbors. The husband asked if I could sponsor his mom and dad and of course I said, yes! Well he asked me to walk across the street to give them one...while in the house I asked about who would be paying for their funeral and they said the son would have to pay. I mentioned the final expense policy and wrote up two policies on the spot. I love the RX Card.”

“My son was in need of ear drops and steroids and even with insurance the cost of the drops and steroids was around \$150 out of pocket. With this Rx card, it saved me \$94.00 on out of pocket cost which was amazing. I love the things that NAA can provide us and our families. Thanks NAA for everything.”

“Today an agent wrote a lead for policy that was \$14 a month, but got 9 referrals. One client called us to say they saved \$2,160 a month on their prescriptions with the card. One drug was \$550 per month. With the RX card it was \$85. Crazy! Another client saved \$20 on one prescription.”

“...I brought up the card and turned the no into a yes. I wrote a Plan Right application on the husband and the wife, and before I left, they sent me directly across the street to write business on their daughter-in-law. On my way out of the daughter-in-laws house, I was greeted by the applicant who had a cordless phone in her hand and a church member on the line. I booked an appointment with the woman on the line who then connected me on a three way call with a relative, who also had children who wanted an appointment. When it was all over, I had 3 applications and 5 appointments for the week!!! I sure am glad I used my ace in the hole, and my new best friend; The Universal RX Prescription Card!”
